# 4. FIRST AID MEASURES

# 4.1 Description of first aid measures

General advice: Move out of dangerous area.

Take off all contaminated clothing immediately.

Do not leave the victim unattended.

Show this safety data sheet to the doctor in attendance.

If inhaled: Move to fresh air.

If symptoms persist, call a doctor.

Show this safety data sheet to the doctor in attendance.

In case of skin contact: Wash off immediately with soap and plenty of water.

If skin irritation occurs, seek medical advice/attention.

In case of eye contact: In the case of contact with eyes, rinse immediately with plenty of water and seek

medical advice.

If swallowed: Rinse mouth.

Do NOT induce vomiting. Call a doctor immediately.

# 5. FIRE-FIGHTING MEASSURES

# 5.1 Extinguishing media

### Suitable extinguishing media:

Carbon dioxide (CO2), foam, water spray, dry powder.

# Extinguishing media which must not be used for safety reasons:

High volume water jet.

#### 5.2 Special hazards arising from the substance or mixture

Violent polymerization may be caused by: Extremes of temperature and direct sunlight. Fire will produce dense black smoke containing hazardous combustion products (see Section 10). Exposure to decomposition products may be a hazard to health.

#### 5.3 Advice for fire-fighters

In the event of fire, wear self-contained breathing apparatus.

Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Do not allow run-off from fire-fighting to enter drains or water courses.

## 6. ACCIDENTIAL RELEASE MEASURES

## 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Vapours are heavier than air and may spread along floors. Use personal protective equipment.

## **6.2 Environmental Precautions**

Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration.

#### 6.3 Methods and material for containment and cleaning up

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Clean contaminated surface thoroughly. Treat recovered material as described in the section "Disposal considerations".

#### 6.4 Reference to other sections

See also Section 13.

#### 6.5 Additional information

Treat recovered material as described in the section "Disposal considerations".

## 7. HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

#### Advice on safe handling:

Processing may lead to evolution of flammable volatiles.

In case of insufficient ventilation, wear suitable respiratory equipment.

Keep product and empty container away from heat and sources of ignition.

Handle and open container with care.

Avoid contact with skin and eyes.

# Precautions:

Smoking, eating and drinking should be prohibited in the application area.

For personal protection see Section 8.

Observe label precautions.

# Advice on protection against fire

Take precautionary measures against static discharges.

Vapours may form explosive mixture with air. Use water spray to cool unopened containers.

# 7.2 Conditions for safe storage, including any incompatibilities

# Storage space and container requirements:

Store in accordance with the particular national regulations.

Keep in a cool, well-ventilated place.

Keep in properly labelled containers.

Containers which are opened must be carefully resealed and kept upright to prevent leakage.
