

# ALUPLY PVC REINFORCED MEMBRANE

Solutions for mechanically fastened applications comprising of a multi-layered thermoplastic 1.5mm PVC-P roofing membrane reinforced with woven polyester, ancillary components, insulation boards, and air and vapour control layers (AVCL). Aluply PVC is another high-performance waterproofing solution from Alumasc Roofing and is subject to the highest levels of certification and testing. Ideal for lightweight fast-track construction the system is fully adaptable to meet the individual requirements of every project for use across all building sectors in both new-build and refurbishment roofing projects.

## Where to Specify

- New Build
- Refurbishment
- Warm roofs (all roofing insulations)
- Insulated overlay of existing waterproofing systems
- Ideally suited to metal and timber substrates

## Durability

BBA Certified - When installed on stable substrates and regularly maintained, the system will have a life in excess of 35 years.

## Environmental Benefits

Mechanically fixed PVC can be easily removed at the end of its life and recycled back into the production process into new raw material.

Typical Assembly	
3	Aluply PVC Reinforced Membrane*
2	PIR Insulation or Class A fire rated alternative
1	Air & Vapour Control Layer, type according to the substrate
	Alumasc Primer, type according to AVCL

\*Membrane is secured to the substrate using mechanical fixings calculated in accordance with BS EN 1991-1-4 to determine the correct fixing centres specific to the project.

# ALUPLY PVC REINFORCED MEMBRANE

## Other Common System Types

**ALUMASC**  
ROOFING

### Insulated Overlay of Existing Waterproofing

3	Aluply PVC Reinforced Membrane
2	PIR Insulation or Class A fire rated alternative
1	Existing waterproofing

## Approvals

- BBA Certificate Pending
- Fire classification of **B<sub>roof</sub> (t4)** in accordance with BS EN 13501-5

## Warranties

Alumasc offers a comprehensive range of single-source warranty options for up to 20 years. Installed exclusively by Registered Contractors and underpinned by Alumasc's extensive project support service, Alumasc warranties cover product, workmanship, and design.

## Technical Support

Alumasc Technical Services can advise on all aspects of product selection, specification and integration of Alumasc systems into any building design.
