Key Benefits

- Improves the building's energy efficiency in summer and winter
- Acoustic Enhancement
- Various Colours and Profiles
- Quick and easy install
- Hard wearing
- Lightweight solution
- Low maintenance
- Weather resistant

Sustainability By Design!

Coating & Coating Guarantee - Ultra 60

For over twenty years ArcelorMittal has been at the forefront of applying weather resistant coatings to high quality steel coils. Granite®HDX is the high quality Thermoset Paint applied to give our range of Ultra 60 coated products their performance guarantee, when used in an external building envelope application, namely roof and vertical panels on industrial and commercial buildings.

Guarantees can be up to and including 30 Years on the sheet finishes depending on the external environment and geographical location.
