

Description

Aluply Fixing Bar is a high-grade galvanised steel bar supplied with pre-drilled holes to accommodate fasteners or tube washers, as required by the application, at predetermined centres.

Application

- Termination of membrane at parapet walls and penetrations.
- Peel stop details on bonded membrane systems.
- An alternative to load spreading pressure plates in a mechanically attached roof system.

Site cut bar ends should be wrapped with membrane or tape to prevent damage to the membrane.

Product Data

Material	Galvanized Steel
Height (mm)	30mm
Width (mm)	30mm
Length (y) (m)	2.1m
Thickness (mm)	1.5mm
Weight Per 2.1m Bar	0.72 Kg
Pack Content	10 Lengths

30mm wide x
1.2mm thick
4.5mm leg height

Pre-Drilled Hole Centres

6.5mm Ø hole for fasteners at 100mm centres.

15mm Ø hole for Tube Washers at 100mm centres.

Storage

Store dry. Packs should be laid flat in original packing where possible, do not stack in cross form or under pressure.
