

Description

Alumasc Polyester Protection Fleece is a non-woven polyester material that is resistant to rot, bitumen, and bacterial deterioration. It is designed to provide physical protection and separation between adjacent surfaces.

Applications which require a chemical separation / compatibility separation, should use Alumasc Separation Fleece.

Application

Used as a protective layer positioned either above or beneath the Aluply PVC Single Ply membrane. Side and end laps must be formed with a minimum overlap of 100mm. The fleece is loose-laid in horizontal applications; however, mechanical fixing may be required when installed on vertical surfaces.

Product Data

Length	75m
Width	2.2m
Colour	White
Mass	300 (g/m ²)
Thickness	3mm
Roll Weight	49.5 Kgs

Storage

Store horizontally in the original packaging, in a clean, dry location, away from heat sources.

Health & Safety

This product is classified as an article and is not subject to Safety Data Sheet (SDS) requirements.
